

Corner Guard Straight Edge R-2011

General Description:

Corner guards protect vehicles and walls. They are space-efficient and ideal for busy or cramped environments such as enclosed parking lots, warehouses, commercial loading docks and various industrial applications. Corner guards feature reflective yellow markings for optimal visibility in all lighting conditions. Rubber is highly durable, form-fitting and won't crack, chip or peel with extended use--even in heavy commercial and industrial environments. Corner guards feature simple bolt-on, surface-mount installation and require minimal labor and equipment to install.
