

# Detectable Warning Plate R-4984-24Q

Underside View

## General Description:

Reliance Foundry's R-4984-24Q detectable warning plates make city streets more accessible for the visually impaired. This model is 24 inches square, and made from high-quality cast iron. Tactile paving with truncated domes warns pedestrians of the approaching street and changing levels. The unique boltless locking design makes it easy to connect multiple plates before installing into concrete.

## Specifications:
