

# Detectable Warning Plate R-4984-30Q

Underside View

## General Description:

R-4984-30Q detectable warning plates help visually impaired pedestrians navigate busy streets. 24 inches deep and 30 inches wide, these tactile plates mark the transition between sidewalk and street. Detectable warning plates with truncated domes are made of quality cast iron that endure daily wear and tear. Plates can be connected without bolts by using lock tabs and slots. Easy installation into prepared concrete.
