

# Concrete Bollard, Model R-9703-RB-24

Product ships standard with 6" rebar extensions. Actual length requirements should be determined by a site engineer and requested upon ordering.

## General Description:

The R-9703 Concrete Bollard features a wide square base and low-profile pyramid top, making it ideal for large open spaces in urban environments surrounding prominent buildings. Concrete bollards are reinforced with epoxy-coated steel rebar, and use high-pressure cement to ensure the best strength and durability against chipping and wear. Exposed aggregate finish features British Columbia granite. Install bollards by embedding rebar extensions in wet concrete--or use adhesive to secure into pre-drilled holes. Bollards ship standard with 6-inch rebar extensions and drilling template. Custom rebar lengths available.

For more information on bollard post installation, please visit: [www.reliance-foundry.com/bollard/installation-bollards](http://www.reliance-foundry.com/bollard/installation-bollards)

## Specifications:

Height: 32"

Base Sizes: 24" x 24"

Weight: 1200 lbs ( Bollard Only )

Material: Precast Concrete with Epoxy Coated Steel Rebar Reinforcement

Finish Options:

- Exposed aggregate

## Installation Options:

- Existing Concrete: Bollards ship with fitted rebar template. Use template to drill accurate installation holes. Secure rebar in concrete with construction adhesive.
- New Concrete: Set rebar footings into wet concrete. Before installing, bend rebar outwards for more secure anchoring.

Bend rebar before setting in wet concrete (new concrete installation only)

## Notes:

- Embedment details are for reference illustration only. Minimum foundation sizes depend on local soil conditions, weather conditions, and engineering requirements.
- Bollard is provided as shown with parts listed below. Concrete foundation and/or installation not provided by Reliance Foundry.
- This drawing is not drawn to scale. Dimensions provided herein is for reference only. Please consult Reliance Foundry sales professionals if any dimension is critical to your particular installation.
- Reliance Foundry reserves the right to amend design and specifications without prior notice for product improvement.
